GEN. SCOTT ON HIS WAY TO FRONT

Chief of Staff of the Army Will Confer With General Funston at San Antonio on Plans for Mexican Expedition.

Outcome of Present Crisis With Germany, Experts Believe, May Alter Plans With Regard to Mexico.

Associated Press Dispatch.
Washington, April 19. — Major General Hugh L. Scott, Chief of Staff of the army, will go to San Antonio, Texas, tonight, by order of Secretary Baker, in order to get accurate information as to the situation on the border and in Mexico.
Secretary Baker issued this statement: "General Scott leaves for San Antonio this evening at my request. He will spend several days with General Funston and return. This trip is made solely for the purpose of getting as much accurate information as possible for use of the department."
"General Funston remains in full charge of the affairs of his department, including the expedition in Mexico."
"He has the full confidence of the department and his disposition has the department's approval."

AWAIT REPORT

By Associated Press Dispatch.
Washington, April 19.—Decision of the Washington Government upon the question as to whether the United States forces hunting Villa shall be recalled or be reinforced for further operations, today awaited the receipt of information from General Funston.

AT STANDSTILL

By Associated Press Dispatch.
Washington, D. C., April 19.—General Funston already has submitted a lengthy report on the situation and additional advices from him are expected.
Meanwhile indications are that the chase for Villa is at a standstill. The general belief here is that the German situation would have some bearing upon the impending decision.

THE LAST WORD

"I have deemed it my duty, therefore," the President told Congress, "to say to the Imperial Government that if it is still its purpose to prosecute relentless and indiscriminate warfare, the Government of the United States is at last forced to the conclusion that there is but one course it can pursue and unless the Imperial German Government should not immediately declare in effect an abandonment of its present methods of warfare against passenger and freight carrying vessels, this government can have no choice but to sever diplomatic relations altogether."

Should a break with Germany occur, it was pointed out, the troops now in Mexico would be needed at home as military prudence would require that steps be taken for the protection of United States property.

MEXICAN HOPE

By Associated Press Dispatch.
El Paso, Texas, April 19.—Confirmation of reports that the United States expeditionary force was being concentrated at three points in Mexico preparatory either for the withdrawal of the troops or organization of a new and more extensive campaign, were received here today.
The belief that the American troops are about to leave Mexico is widespread among the Mexicans in Juarez, and has completely changed the attitude of the Mexican people in Juarez.
Messages received here stated that there were between four and five thousand cases of typhus in the city of Aguas Calientes.

EARNEST SCHILLER NOW ON HIS WAY

By Associated Press Dispatch.
Wilmington, Del., April 19.—Ernest Schiller, who recently held up the captain and crew of the British freighter Matoppo, on the high seas, was on his way today to the Federal prison at Atlanta, in custody of United States Marshals.

Schiller yesterday pleaded guilty to a charge of piracy and was given a life sentence.

INGRAHAM IS NAMED

By Associated Press Dispatch.
Washington, April 19.—Wm. M. Ingraham, former mayor of Portland, Me., has been selected by President Wilson for assistant Secretary of War.
The nomination was signed today. Mr. Ingraham will succeed Wm. Breckinridge, who resigned with former secretary Garrison.

Legislative Body Advised Fully as to Present Status of the Grave Crisis

The Future Rests Entirely With Germany—No Alternative Is Allowed in Note, Which Is Now on Way to Berlin.

By Associated Press Dispatch.
WASHINGTON, APRIL 19.—PRESIDENT WILSON HAS SENT A NOTE TO GERMANY WARNING HER THAT UNLESS ATTACKS ON MERCHANTMEN CARRYING AMERICANS, IN VIOLATION OF INTERNATIONAL LAW, ARE STOPPED, DIPLOMATIC RELATIONS WILL BE SEVERED.

THE PRESIDENT EXPLAINED THE NOTE IS PRACTICALLY AN ULTIMATUM, BUT DOES NOT CONTAIN A TIME LIMIT.

THE DEMAND IS MADE THAT GERMANY REPLY IMMEDIATELY.

By Associated Press Dispatch.
Washington, April 19. — President Wilson told Congress, assembled in joint session shortly after one o'clock, he has given Germany irrevocable notification that the United States will break off diplomatic relations if her illegal submarine campaign is continued.

A note, America's last word, practically an ultimatum and demanding an immediate reply, presumably was in the Berlin Foreign Office as the President was speaking.

The president asked no action whatever of Congress.

He simply informed it of the accumulation of facts proving Germany's assurances to the United States are being violated by the submarine campaign, despite earnest protest, is being conducted with renewed vigor, in contravention of all the laws of nations and humanity, and that he means to sever relations unless it is brought within the law.

Diplomatic history of the world shows that such a course is almost certain to be followed by war.

The president's note and his address to Congress are final. They mark the end of diplomatic ex-

changes. A continuance of the long standing relations, he made clear, depends alone upon Germany's conduct.

While the Senators were taking their seats, President Wilson reached the capitol and waited in Speaker Clark's office.

As the President entered, Senators, Representatives, Cabinet and galleries arose. An outburst of applause gave way to loud cheering. As the President began the review of the German submarine campaign, there was no demonstration to punctuate his recital of the sacrifice of American lives.

When he concluded with the expression of hope that Germany would so act to prevent a regrettable break with the United States, the assembly broke into cheers.

"I think this government should be neutral," said Representative Mann. "The president never has been neutral. He has been on the English side all the time. It is perfectly evident that the President, as a campaign political dodge is trying to work up to the point where he can get into a war with Germany during a presidential campaign."

"The President's position is a complete repudiation of his note of January 18th, sent through Secretary Lansing, regarding the arming of merchant vessels and submarine warfare," said Representative Cooper, ranking Republican member of the Foreign Affairs Committee.

"The whole situation resolves itself into a question of whether the United States will set up a code of regulations which it may have to abide by when its sole defense is the submarine."

THIS MORNING

By Associated Press Dispatch.
Washington, April 19.—10:36 a. m.—The president, in his address to Congress today will reveal fully what he has told Germany. The note and his address, the Congressional leaders said, contains the plain statement that the alternative is the breaking of friendly relations.

The President revealed this fact

to Senators Stone and Lodge and Representatives Flood and Cooper, ranking Democratic and Republican members of the Congressional Foreign affairs committee, at a conference at the White House early today.

The President went over the situation very thoroughly with the committee leaders, and told them that he believed the United States could not remain on friendly terms with Germany if American lives continued to be placed in jeopardy by German submarines.

He laid before them all information he will convey in his address to Congress.

The demand for a stop of illegal submarine warfare, the President told the leaders, is unequivocal.

As the committeemen left the White House they made no effort to conceal what the President had told them. The President may claim, however, that if Germany conducts warfare in accordance with international law, the United States government will be glad to continue friendly relations.

It was disclosed that the President in his address to Congress will go into detail about the incidents which have caused the United States government to view the situation with such gravity.

The President takes for granted that members of Congress are familiar with them.

The note went forward last night in code by way of Copenhagen. The President wants it to be in the hands of Ambassador Gerard or the German Foreign Office when he appears before Congress.

UGLY ANGLE IN IGLE CASE

By Associated Press Dispatch.
Washington, April 19.—The German Ambassador, Count von Bernstorff, conferred with Secretary Lansing this morning. The engagement was made at the ambassador's request.

It was revealed that the ambassador went to the State Department, not to discuss the submarine situation, but to make further inquiries for the return of papers which were seized from Wolfe von Igle, former secretary to Franz von Papen.

The department of justice has virtually decided to hold Von Igle unless the State Department specifically demands his release on the ground that the crime with which he is charged was committed a year before he became Von Papen's secretary.

TOMORROW

Washington, April 19.—The text of the note to Germany will be given out by the State Department probably for publication tomorrow morning.

French Regard the Capture of Trebizond By Czar's Troopers as Important.

Paris, April 19.—Paris received with great enthusiasm the news of the fall of Trebizond. This event was looked for but it was not thought the Russians would be able to capture the city so quickly.

The political as well as the military consequences are expected to be most important, particularly in view of the fact that Turkey has lost one of the most valuable parts of Asia Minor, at a time when, according to reports reaching Paris, Germany is weakening her forces in the Balkans to carry on attacks on the western front.

ANNUAL MEETING WOMAN'S PRESBYTERIAL

The forty-first annual meeting of the Woman's Presbyterian Missionary Society of the Chillicothe Presbytery, Synod of Ohio, convenes in the First Presbyterian church of Chillicothe, Thursday night and Friday of this week.

The features of the opening sessions Thursday night are an address on "Our Synodical Task" by Helen Keil, Synodical President of Home Missions, Oxford and an address by Mrs. N. W. Hankemeyer, Field Secretary of the Woman's Board of Home Missions, New York City, her subject, "A Message From The Home Field."

Friday morning's session will be largely devoted to business connected with the Presbyterial. Mrs. Fullerton makes the report of executive committee, Miss Anna Hummell, "Among Our Freedmen;" Mrs. Erskine Brown, "Box Work;" Mrs. A. L. McWilliams on "Mission Study."

Mrs. G. M. Ustic, First Vice President, who was to have opened the morning session, and Mrs. Frank M. Fullerton, Recording Secretary, will be unable to attend the meeting.

Mrs. P. J. Henness, of this city, has charge of the Friday afternoon opening prayer service, the theme, "Missions and World Issues."

Miss Alice Wishart, Field Secretary of the Woman's Board of Foreign Missions Philadelphia, will deliver an address on "The Home Base" and Mrs. A. F. Hopkins give the report of Home Missions.

The young Peoples' Hour will be in charge of Miss Anna May Parrett and Helen Keil makes an address, "Our Boys and Girls."

The report of Treasurer, Miss Anna Welsh, reports of committees and nomination of officers will close the afternoon's program.

A popular meeting will be held at night. There will be two addresses, Miss Wishart talking on "India" and Rev. Geo. L. Gelwick, of China, speaking of the field in that Empire. There will be special music at each session.

HOW TO REGAIN STRENGTH

The great factor that retards recovery after sickness is that weakened devitalized condition, and it will interest our readers to know that our local druggists, Blackmer & Tanquary, have a reliable, non-secret strength creator called Vinol, which contains iron for the blood, the curatives of fresh cod livers and the nourishing properties of beef peptone, all combined in a delicious native wine. For weak, run-down conditions and to regain strength after sickness, there is nothing better.

for the Drug Victims

There is no longer any question as to the wisdom of the enactment of anti-narcotic laws by the national congress. Under the authority of the national government to pass measures of that sort for the purpose of raising revenues, congress laid hold of an existing evil and under the guise of a revenue measure has taken effective means to stamp out an evil which was growing and spreading at such an alarming rate that the very foundation of the nation was threatened. Strict enforcement of the law has resulted in great progress toward breaking up the traffic in dangerous drugs—in fact the traffic in narcotics has almost been broken up already. So far, for the purpose underlying its enactment the law has worked admirably. Of course it was impossible for the national congress to incorporate in the anti-narcotic legislation any provision for the care of those who had already fallen victims to the drug evil and as a result thousands are suffering mentally and physically by reason of the deprivation which the law enforces. The victims are human beings and worthy of attention. Unfortunate and to be pitied rather than censured. It is up to the generous whole souled people of the state to take up, by means of voluntary organization, the work of caring for those unfortunates and several such organizations have been formed in Ohio already. Genuine, well managed organizations of that kind are worthy of the support of good citizens. We can afford to give a little for a cause which will relieve the suffering entailed by reason of the enforcement of legislation designed to, and which will, benefit future generations so markedly.

The One Big Purpose

The United States has suffered much as a result of the European war and much as a result of the reign of revolution and anarchy in Mexico. It has suffered in the loss of property to the amount of millions of dollars and many American lives have been sacrificed to the demon of war. All told it is estimated that more than two hundred Americans have lost their lives in one or the other of the war zones. Under normal conditions this nation could have and would have called the offending people to account for outrages committed. Under present conditions we must be mindful of our inability, no matter how well prepared, to do aught by force or threat of resort to force, save add to the loss of property and life already sustained by plunging into the whirlpool of war. We should not be unmindful of the fact that threats of war to nations already at war mean nothing save to add to the turmoil and destruction now raging on every side. The United States must, under the most trying conditions, remain firm in its determination to keep out of the awful conflicts, remain in a position to further the cause of peace and to assist in making peace pacts effective when executed. Almost every warring nation has offended. There will come a day of sober thought and calm reflection to war mad nations and then the wrongs can be righted. Until that time the United States must, if possible, hold aloof from war ready to serve humanity and escape still greater loss. The position of the president is trying in the extreme and every good American should support him in his endeavor to avoid war. No president has ever faced a more difficult task than the present chief executive. Those who talk war for political effect should be frowned down.

Mexican Developments

Conditions in Mexico at this time are anything but satisfactory to the American people. The prospect for the success of the punitive expedition without a clash with the populace or with the troops of the de facto government is not particularly promising. Either by the populace or by the Carranza garrison at Parral our troops were fired upon last week. The resulting skirmish was sufficient to warrant the Carranza government, operating on Mexican ideas of policy, granting its good faith, to halt our troops on pretext of avoiding trouble. Since the Parral fight such meagre reports of conditions as it is possible to transmit to the border and get past the censors indicate that General Pershing's command was halted at Satevo, while hot on the trail of Villa, and just when his prospects were brightest. It is openly charged in official circles that the Parral affair was deliberately staged by the treacherous Carranza garrison until Villa could make good his escape. Then the Villa is dead hoax was circulated to gain further delay and was stamped with authenticity by Carranza officials. Now following close in order comes the report that the anger of the Mexican people is increasing. Unless Carranza can hold his garrisons in line, assure the United States not only that he desires to but that he can play fair—the troops in Mexico should be reinforced to such an extent that they will be able to handle the whole situation no matter what the developments. The government at Washington should permit no trifling.

Poetry For Today

AMERICA FIRST AND FOREVER.

A NATIONAL MARCHING SONG.

First land in all the world to me,
O great Republic of the free,
Thy lights on high,
Floods every sky,
And marks the paths across the sea,
Nation of nations, peoples' land,
For every race a helping hand,
Swift in the right,
Slow in thy might,
First in our love and faith you stand

Chorus:

First land in all the world,
With freedom's flag unfurled,
Emblem of United States, each state
a star,
Thy sons of native birth,
Thy sons from all the earth,
We love and serve thee first, in peace
or war.

By thy immortal patriot sires
Whose lofty valor still inspires
We now renew
Their pledge to you
Here by thy sacred altar fires.
Truly we'll keep the vows they swore
And if thy battle eagles soar,
We'll answer all
Thy trumpets' call
First, last and thine for evermore!

GOOD FRIDAY.

I was a little child who walked beside the beaten way.
The air was hung with flower scents, and in the meadows gay I heard the song birds murmuring and children at their play.

I walked until I saw a hill, and there, against the sky,
I saw three crosses raised aloft and on them, plained high,
I knew a holy man, our Lord, was just about to die.

I saw the gleaming sun go down, I saw the flowers fade,
I saw the fire from above as on His face it strayed,
And then I heard a woman scream, and lo, I was afraid!

I was a little child who walked beside the beaten way.
I could not understand or guess—I knew not what to say—
And yet, with untaught heart, I knelt beside the road to pray!

THE INFLUENCE OF EASTER.

Everybody Needs the Message, "Rise to Newness of Life."

No one may account himself free from the spiritual teaching of Easter day because he may consider the Christian faith concerning it romantic, fictitious, poetic, allegorical. None the less is the practical, personal truth emphasized, that everybody needs the message of Easter, "Rise to Newness of Life."

Is he in all respects the noble being he would have his friends consider him? Is his influence always on the side of that which is high and true? If a man is only that which God knows him to be is there not room for improvement in every one's life? Self examination and honest, sober thought will surely teach every one of us that there are nobler aims, purer

Mutual Profit, the Foundation of Permanent Success

The Geiger-Jones Company believes that permanent success in the investment business can not be founded on selfish considerations or the mere desire for profit—but can ensue only as the natural result of valuable, constructive service.

Our pre-eminent success during the past 12 years has been founded on this belief. We have grown neither more rapidly nor more slowly—but in direct ratio to the prosperity of the great manufacturing enterprises we have financed, and that of the 10,000 investors to whom we have sold securities.

During the past 12 years more than 20 such enterprises have made use of our service to speed up production and increase their profits. More than 10,000 men and women, residing in 35 states, have purchased nearly \$20,000,000, par value, of preferred stocks on our recommendation without losing a dollar of principal or income.

The par value of these stocks is \$100 per share, and purchases are made in amounts of from one share upward.

We have just published a very interesting "Portfolio of Anniversary Reports, with Photographs, from Manufacturing Enterprises Financed by The Geiger-Jones Company"—a 32 page book that is a valuable addition to the reference library of all who are interested in the industrial growth of the Middle West. It tells the principal facts about 20 great manufacturing plants and some of the details about The Geiger-Jones preferred stocks.

We will gladly send you a copy of this publication without expense or obligation if you will send us a post card bearing your name and address.

While negotiations between the B. & O. and D. T. & I. have not yet been closed for the D. T. & I. to become a tenant of the new Union Station, it is known with a degree of certainty that the arrangements will be completed within a short time, and that as soon as the arrangements are completed and the D. T. & I. becomes a tenant of the union station, steps will be taken to move the new D. T. & I. passenger station to some other city, or utilize it in some other manner in this city.

By becoming a tenant to the Union Station the D. T. & I. eliminates the necessity of making two stops in this city, and thus saves several minutes on each train, as well as offering more satisfactory arrangements in making connections with the other roads.

Part of the new train sheds erected by the B. & O. must be torn out and set back farther from the D. T. & I. tracks, it is announced, the sheds at present being closer than permitted by law.

WORK CONFERRED BY IMPERIAL STAFF

For the third time during the past six months the Imperial Degree Staff of Temple Lodge I. O. O. F., conferred the first degree upon a class of candidates, Tuesday night.

The candidates were from Mt. Sterling and some 25 or 30 Mt. Sterling men were included in the number of visitors who watched the matchless work of the famous team.

On the 15th of next month the staff will exemplify the first degree in London, where several hundred Odd Fellows are expected to witness the work.

MORE ARRESTS FOR UNLIGHTED MACHINES

Two more local residents were summoned before Mayor Oster Wednesday morning, for failure to have the lights burning on their machines.

Each of the men paid a fine of \$1 and the costs, amounting to \$4.95.

VOLUME OF TRADE ON THE INCREASE

With the good weather and accompanying change for the better in

the condition of Fayette highways, the volume of business transacted in this city has greatly increased during the past few days.

Many persons have come into the city during the past ten days, for the first time since long in the winter when the highways became so bad, and large quantities of goods of all kinds are being purchased daily.

Each day brings a large number of people into the city to do delayed shopping. And the merchants are well supplied with the usual wide variety of goods so that shoppers are finding no difficulty in obtaining what they want.

MOTION FOR NEW TRIAL OVERRULED

Wednesday morning Attorney C. E. Baughn filed a motion with Mayor Oster asking for a new trial for Elizabeth Minshall, citing some fourteen reasons why he believed a new trial should be granted.

After going over the motion carefully the mayor overruled it. It is claimed by Solicitor Gregg that time for filing the motion passed when sentence was pronounced upon the woman.

Alton Porter, against whom Elizabeth Minshall filed a charge of giving away intoxicants, will be tried on the charge Thursday morning. Porter is the man who testified that he purchased a pint of whiskey from the woman, paying her 70c for the same.

It is understood that other charges will be filed against the Minshall woman and if charges are filed and she is convicted upon a second charge, a much heavier fine may be assessed.

Developments in the case are being watched with interest.

CHALLENGE ISSUED TO BOY CAMPERS

Four boys who are working toward defraying camping expenses this season, already have collected old paper and other materials which they have disposed of for \$7.50.

The boys have issued a challenge to the other boys who will take part in the annual camp, and at a meeting tonight the challenge will be accepted and the strife will be on the remainder of this week, to see which squad of boys can obtain the greater fund from collecting old papers, etc.

Vudor Porch Shades

Summer Pleasures without Summer Discomforts! Indoors it's sticky and moist. On the porch it's cool—when the Vudors are down.

Why not eat, sleep, live there this summer? Thousands do it. The cool air gives appetite and forces you to dreamless sleep because it bathes the nerves while you sleep. It cures them.

Vudor Porch Shades cost little. They give air but keep out glare. You can look out through Vudors, but not in through them. They last—they keep "that new look," for they're stained, not painted, nor dipped.

PROGRESSIVE FARM PLANS

Mr. Elmer Junk of the hardware firm of Junk & Willett, this city, has sold within the last 24 hours, three International Mogul Tractor plow outfits.

The purchasers were Howard Jefferson, of Madison Mills, Glenn and Horace Wilson, Bloomingburg, and Frank Rothrock, of this city.

The gang plows attached to the three mentioned outfits mentioned, consists of two 14-inch plows, each, turning up furrows 9 inches deep.

The Mogul outfit is "taking" splendidly with farmers hereabouts as one of the most effective and progressive methods of farming. The tractor "works anywhere" on the farm. It will pull the cutters and rollers; it will harvest the grain, fill the silos and, in fact furnish power wherever power is needed on the farm.

Mr. Junk is congratulating himself on the great popularity of the Mogul tractor and the purchasers seem equally well pleased.

Many other progressive farmers are watching the new tractor with the intention of "annexing" one in a short time.

GREAT GAINS FOR THE CZAR

Trebizond Reported Captured By the Russians.

London, April 19.—According to an unofficial dispatch from Petrograd, the Russians have captured Trebizond, an important fortified seaport in Asia Minor, on the Black sea. A statement issued by the Russian war office, however, does not confirm the capture of Trebizond, but places the Russians at Drona, sixty-three miles from the city.

The fall of Trebizond means that the right wing of the Grand Duke Nicholas' Caucasian army has covered a distance of 115 miles since the capture of Erzerum, the great Armenian stronghold, on Feb. 15 last, steadily driving the Turks before them and clearing the entire Armenian Black sea lateral of the Ottoman defenders. The Russian war office statement tells of the ejection from many positions of the Turks west of Erzerum. The Russian forces now reported to be in Trebizond are at present a great flanking menace to the Turkish troops still stubbornly resisting the Russian tide from Erzerum into the interior in the direction of Sivas.

BRITISH CABINET ROW ON

Premier Asquith Likely to Tender Resignation.

LLOYD GEORGE MAY STEP IN

Members of the House of Commons Marshalling All Their Available Forces For the Great Struggle Over the Carson Motion For Universal Military Service—Members Serving at Front to Return to London.

London, April 19.—That a grave cabinet crisis exists is admitted on all sides. No resignations have been tendered.

The Marquis of Crewe, lord president of the council, in his statement to the house of lords, which was the first official admission of the gravity and complexity of the problem dividing the ministers, intimated the possibility that Premier Asquith might not be prepared even on Thursday to make his promised statement, in which case the house would hear it the following Monday.

Members, for this momentous conflict, are marshalling all their available forces for the parliamentary struggle over Edward Carson's motion for universal military service. Strong whips are out and all the members of the house of commons serving at the front have been granted leave to return to London until a division is taken.

Political gossip centers mainly around Minister of Munitions David Lloyd-George and Winston Spencer Churchill, and the possibility of Mr. Lloyd-George succeeding Premier Asquith as the head of the government. While the conscriptionist attack on the ministry is undoubtedly powerful and threatening, there also are strong forces making for the retention of the present coalition ministry—first, Mr. Asquith's known skill in surmounting political difficulties and holding his team together, and, second, the problem of finding an alternative government at a critical stage of the nation's fate.

In the event of the disappearance of Mr. Asquith as a result of his refusal to remain a member of a government resorting to universal service, Mr. Lloyd-George is regarded in many quarters as his natural successor. But against this solution is the fact that a very strong faction of the Unionist party is entirely opposed to Mr. Lloyd-George as it is to Mr. Asquith.

Moreover, it is known that Andrew Bonar Law, who is a conscriptionist in principle, attaches the utmost importance in the national interest to the maintenance of the present coalition ministry in power.

WHEREABOUTS IS NOT KNOWN

(By American Press)

San Antonio, Tex., April 19.—Supplementing also report in regard to the fight with Villistas, Major Howse wired Consul Fletcher at Chihuahua City that he was positive Villa was in the mountains southwest of La Forja, which is a small town north-west of Parral.

Major Howse was in contact with several bands of Villistas while hurrying from LaBorja to Santa Cruz. It is believed he was pushing to Santa Cruz to join Colonel Brown's command because he feared a large number of Villistas were in that vicinity.

The positive statement by Major Howse that Villa was hiding in the mountains near LaBorja would indicate that the story of Villa's death is untrue, for the reason that his location is far from the place where it was reported his body had been found. General Funston has received no confirmation whatever from any source to substantiate the story of Villa's death.

DIDN'T GATHER VERY MUCH NEWS

(By American Press)

Washington, April 19.—Count Von Bernstorff, the German ambassador, calling upon Secretary Lansing by direction of his government, almost at the moment the president was arranging the joint session of congress, was informed that the secretary could not discuss the submarine situation with him at this time. It was evident that the ambassador was seeking information of the American government's plans and that it had been decided he should not have it.

The ambassador did state, however, to Secretary Lansing that under no circumstances could Germany give up the submarine, because it was being used in retaliation for Great Britain's food blockade, but would attempt to use the submarines in accordance with international law and Germany's assurances to the United States. He added that in any case where instructions to submarine commanders were violated reparation would be made, in accordance with the assurances given in the Lusitania, Arabic and other cases. Secretary Lansing told the ambassador he would see him again in a few days.

Senator Stone, chairman of the senate foreign relations committee, and Congressman Flood of the house committee, held a conference with the president, just before the latter appeared before the joint session of congress.

SOME ARMY

(By American Press)

Washington, April 19.—An army reorganization bill that would produce regular army and reserve military forces in the United States aggregating 1,000,000 men was passed by the senate without a record vote. It is a substitute for the Hay bill passed by the house and the differences will be worked out in conference. The amendment making the army's peace strength 250,000 instead of 180,000, as provided in the bill as framed by the military committee, was adopted 43 to 37, 22 Republicans and 21 Democrats voting for it. Another amendment adopted would create a reserve regular army force in time of war to be composed of school and college youths, and to provide a means of recruiting the proposed volunteer army force.

While working on a steel stack on the Kock building in Wells street the stack "bucked" and he was thrown 100 feet to the roof of a building and killed instantly.

"CAP" MAYNARD AFTER DONAHEY

(By American Press)

Columbus, April 19.—In a report submitted to Governor Willis, Captain John P. Maynard, clerk of the house of representatives, declares that the report of Auditor of State Donahey on the Eightieth and Eighty-first general assemblies, charging those bodies with gross extravagance, is "misleading, deceptive and inaccurate," and he recommends that the governor return the report to Donahey for correction. Mr. Donahey, replying, said that a second report, if one is asked for, would contain some facts omitted from the first.

SOME GAIN IN MASSED ASSAULTS

Germans Capture Positions Near Chauffour Wood.

ATTACK EAST OF THE MEUSE

Total of French Captured by Germans in the Operations Before Verdun Placed at 40,000 Officers and Men—Crown Prince Said to Be Paving the Way For a Front Attack, Day's Operations.

London, April 19.—A part of the salient east of Chauffour wood, near Douaumont village, was taken by the Germans, following an infantry onslaught.

Berlin reports the capture of 1,738 prisoners, including 42 officers. This makes the total of French captured since the Verdun fighting began 49,604, of whom 753 are officers. A French army corps in time of peace is 40,000 strong.

As an answer to semi-official French statements charging the Germans with gross exaggerations of the French losses in prisoners, the Berlin war office announced that the name of each officer and man captured in the Verdun fighting will be published in the Gazette des Ardennes, as have been the names of all prisoners taken since the outbreak of the war. It is frankly admitted here that Monday's powerful onrush of the crown prince's infantry on the front between the Meuse and Douaumont has shattered "all theories of German exhaustion."

The French official report emphasizes that the attack was of extreme violence. As for its results in territory gained Berlin says that French positions on a stone quarry, 700 yards south of the Haudromont farm and on a ridge of hills northwest of the Thiaumont farm, were wrested from the defenders. The French war office on the other hand claims that the enemy only penetrated a first line trench in the east salient of the Chauffour wood, and that they were partly driven out of this position by a counter attack.

The importance of the huge attack ushering in the ninth week of the Verdun battle rests, however, not so much upon the ground gained as upon the fact that it disclosed for the first time the specific direction in which the crown prince proposes to pave the way for the final front attack against the great French stronghold. For that the fate of Verdun will be decided in such a frontal attack, the lessons of Antwerp, Maubeuge and part of Warsaw have amply demonstrated.

The next blow is expected to be struck on the west bank of the Meuse against La Mort Homme and Hill 204. The French communique emphasizes that this front has been under a violent battering by the German heavy guns.

THE GIRL AND THE GAME

A STORY OF MOUNTAIN RAILROAD LIFE

By FRANK H. SPEARMAN

AUTHOR OF "WHISPERING SMITH," "THE MOUNTAIN DIVIDE," "STRATEGY OF GREAT RAILROADS," ETC

NOVELIZED FROM THE MOVING PICTURE PLAY OF THE SAME NAME. PRODUCED BY THE SIGNAL FILM CORPORATION.

SYNOPSIS.

Little Helen Holmes, daughter of General Holmes, railroad man, is rescued from imminent danger on a scenic railroad by George Storm, a newsboy. Grown to young womanhood, Helen saves Storm, now a fireman, her father, and his friends. Amos Rhinelander, financier, and Robert Seagru, promoter, from a threatened collision. Safebreakers employed by Seagru steal General Holmes' survey plans of the cut off line for the Tidewater, fatally wounding the general and escape. Her father's estate badly involved by his death, Helen goes to work on the Tidewater. Helen recovers the survey plans from Seagru, and though they are taken from her, finds an accidentally made proof of the survey blueprint. Storm is employed by Rhinelander. Spike, befriended by Helen, in turn saves her and the right-of-way contracts when Seagru kidnaps her. Helen and Storm win for Rhinelander a race against Seagru for right-of-way. Helen, Storm and Rhinelander rescue Spike from Seagru's men. Spike steals records to protect Rhinelander and Storm and Helen saves Spike from death in the burning of the courthouse.

(Continued from Yesterday's Herald)

At the mine matters were being pushed rapidly forward for the selling campaign. Driving back with Bill and Lug, Seagru had summoned the foreman, bidden him dismiss the men and dispatched his own two worthies to the surface for bags of ore. In the meantime he and his foreman began to get the rock ready. Bill and Lug returned presently from the bag pile, each of them bearing a sack of ore. Lug was sent for more, while the others deposited the rich quartz in readiness for Rhinelander's examination.

At the assay office in Las Vegas, Rhinelander, accompanied by Storm and Helen, was looking for the expert. Rhinelander held a brief conference with him, telling him what was wanted and asking whether he could accompany him on a trip to the Superstition mine. The expert raised some objection, professing other work on hand, but was finally induced to yield and Storm was sent to procure a motor car in which the party embarked on its return. The orders were to drive straight to the Superstition mine.

Seagru was almost ready for visitors. After an hour's hard work with his men, who had been distributing the sacks and rolling the rich ore in among the worthless rock, he directed them to get ready for a blasting. The foreman took a single charge and put Bill and Lug to work on it.

Seagru left the tunnel, the foreman remaining under his orders to hurry the shot. The moment Bill was ready, Lug got the dynamite, set the fuse and completed the preparations. Outside, Seagru, to his delight, saw Rhinelander and his party driving up. Greet-

ings were exchanged, somewhat stiffly, after the recent encounter of the parties, but without dissension in the presence of the expert, and all started together for the tunnel.

With Rhinelander asking questions every few steps, the expert explained as they walked down the tunnel, the character of the formation and recited something of the history of the mine, with which he admitted he was familiar. It all sounded encouraging. By the time the group had reached the end of the main tunnel Bill and Lug had disappeared from sight. The foreman called in a couple of men and when Seagru asked Rhinelander if he would like to have it fired, and upon Rhinelander's assent, the party got into safety and the shot was discharged.

Coming out of their retreat, the different members of the group picked up specimens of the shattered ore and examined it.

"Certainly, Helen," said Rhinelander in an undertone, "this looks good."

The expert was at hand with a handful of quartz. "That stuff," he said, showing it to the prospective buyer with an air of certainty, "will average two hundred dollars to the ton."

Helen and Storm consulted together, Seagru watching. In a moment he asked them and Rhinelander to follow him outside. Leaving the shaft, he took the three to the bag pile.

"These sacks," said he to Rhinelander, "contain high-grade ore, ready for shipment to the smelter. They are to be included in whatever deal I make with a buyer for the mine."

Rhinelander, Storm and Helen continued to discuss the purchase apart. They counted the number of bags. Rhinelander made an effort to roughly reckon the value of them, Seagru and the expert talking together the while some little distance away. A further conference with Seagru disclosed that the price he wanted for the mine was one hundred and fifty thousand dollars. After the usual bargaining, Rhinelander proposed to take the property, including the ore ready for the wagons, at one hundred and ten thousand dollars—twenty-five thousand dollars to be paid down. Rhinelander accepted, Rhinelander made out his check and the transaction was complete, Rhinelander only requesting that the foreman keep the men at work until he should have a chance to get started. This was assented to and Storm was placed temporarily in charge of the mine.

AMERICANS ARE GIVEN MORE TROOPS A WARNING

Pershing Must Not Advance Further South.

CARRANZA'S MEN RESTIVE

Attitude Described as Menacing in a Report Forwarded to Washington by General Funston—Reports Concerning Villa's Death Discounted in Official Circles at the National Capital.

Washington, April 19.—Brigadier General J. J. Pershing, commander of the American forces in Mexico, has been warned by Carranza military authorities in southern Chihuahua that any attempt on the part of the American expedition to proceed further south will lead to serious trouble.

Major General Frederick H. Funston, forwarding the Pershing report, is understood to have described as threatening the attitude of the Carranzistas, and to have asked for further instructions. He is said to have added that in view of the information in his possession he has already thrown 2,600 additional troops across the border to guard the line of communications.

There was no confirmation of press reports from the border of fresh attacks by Carranzistas on Pershing's forces. Secretary of War Baker, following the receipt of the Funston dispatch, carried it personally to the office of Secretary of State Lansing. The two conferred some time concerning it, following which the secretary of war got into communication with the White House and made an appointment to confer with the president about an hour, but declined to comment on the object of his visit.

Before seeing the president Secretary Baker said: "We have given no orders to General Funston that change in any way the character of the expedition or its movements."

Despite this announcement, there is growing anxiety in official circles, and while officials continue skeptical concerning the reports of Villa's death, members of the president's cabinet are said to be urging that arrangements be made to withdraw the expedition, particularly in view of German situation. The argument is finding favor in certain official quarters that the administration accept the word of the Carranza gov-

ernment if the latter asserts that Villa is dead. The White House, however, is insisting that only the most definite proofs of the bandit's death, backed by the testimony of Americans in position to identify him, would cause the expedition to be withdrawn.

El Paso, Tex., April 19.—More than 2,000 troops along the Mexican border received orders to move into Mexico to reinforce General Pershing's punitive expedition.

The order followed the declaration of General Pershing that he could penetrate no further into Mexico in his campaign to make a prisoner of Pancho Villa without more troops. He had stretched his line of communication, he declared, as far as he could take it with his present force of 12,000 men.

General Funston picked up scattering commands of troops that could be spared along the border. He still has quite a force mobilized at Douglas, Ariz., that could be spared, but with these taken it would not be possible, it is declared, to move more forces into Mexico without calling for the militia to replace some of those stationed on the border. The force ordered to proceed to Columbus with a view to going south to join General Pershing include the Sixth cavalry at Brownsville, the Seventeenth infantry at Eagle Pass, a battalion of the Twenty-fourth (negro) infantry at El Paso and Eagle Pass, and troop L, Ninth (negro) cavalry at Fort Apache, Ariz.

Supplies continue to be shipped by rail to the Pershing forces in Mexico. American troops are forced to dig holes and bury themselves in the ground and cover their bodies with earth to keep warm in the mountain country of Mexico, and overcoats and blankets are badly needed.

In Social Circles

The Browning Club closed a profitable year with a pleasurable club session, followed by a social hour, Tuesday night.

The President, Mrs. P. J. Henness, presided with Mrs. D. H. Rowe chairman of the Social Science and Philanthropy department, in charge of the program.

Mrs. Harry Sprenger contributed a splendid paper, held over from the Home Economics department on "Common Sense and Food Chemists."

Mrs. W. R. Pyley, in a most interesting and well written paper, treated of the Juvenile Court and Judge Lindsey's wonderful work.

Miss Beulah Harbison, who has a lovely contralto voice, favored the club with two solos, "Laddie" and "To a Wild Rose." Miss Ruth Reid accompanied.

Considerable business was taken up for club discussion, the most important transaction the club's decision to join the present movement now agitated for a city federation of clubs. It was voted to hold next year's meetings in the large room of the Y. M. C. A. Annex, which it is expected will be engaged as a club home for all the clubs of the city.

The Browning Club women bring Prof. Morgan here for a Shakespearean recital on Wednesday evening, April 26th.

The club adjourned to Hughey's Confectionery for ice cream and a social finale.

Mrs. Joseph H. Harper hospitably entertained the Wednesday afternoon Euchre Club.

The annual dinner given by the Domestic Science girls to the teachers of the high school passed off with decided eclat, Tuesday night, reflecting immense credit upon the clever girls of the class and their very successful dinner.

Two of the girls, Olive Hillery and Sarah DeWees played the roles of host and hostess with much grace, and served at each end of the table in English style. There were four courses of delicious viands, prepared and cooked by the girls of the class.

The table was lovely, with a novel and artistic center piece of daffodils, emerging from crystal buds in an oval mound of fern and asparagus phormosa. It was specially designed for the occasion by the Buck florists.

The favored guests were Supt. and Mrs. William McLean; Mr. and Mrs. H. G. Coffman, Miss Marie Grove, Miss Elizabeth Sheen, Miss Amy Conn, Miss Clara Thurston.

Mesdames Charles C. Pavey, A. P. Morris and Charles T. Howe have been chosen delegates to represent the Columbus Federation at the biennial convention of the General Federation of Women's Clubs in New York, May 23 to June 6.—Ohio State Journal.

SOWING OATS IN BAD WHEAT FIELDS

Quite a number of farmers in some parts of the county are cutting up their fields sown to wheat last fall in order to sow the field to oats, believing that a crop of oats would be of much greater value than what wheat would be produced from the field.

This practice is only carried out where the wheat has suffered unusual damage by the severe winter. Some farmers estimate the Fayette wheat crop will be two-thirds of an average, although many fields of wheat are little damaged.

GEN. SCOTT ON HIS WAY TO FRONT

Chief of Staff of the Army Will Confer With General Funston at San Antonio on Plans for Mexican Expedition.

Outcome of Present Crisis With Germany, Experts Believe, May Alter Plans With Regard to Mexico.

Associated Press Dispatch.
Washington, April 19. — Major General Hugh L. Scott, Chief of Staff of the army, will go to San Antonio, Texas, tonight, by order of Secretary Baker, in order to get accurate information as to the situation on the border and in Mexico.
Secretary Baker issued this statement: "General Scott leaves for San Antonio this evening at my request. He will spend several days with General Funston and return. This trip is made solely for the purpose of getting as much accurate information as possible for use of the department."
"General Funston remains in full charge of the affairs of his department, including the expedition in Mexico."
"He has the full confidence of the department and his disposition has the department's approval."

AWAIT REPORT

By Associated Press Dispatch.
Washington, April 19. — Decision of the Washington Government upon the question as to whether the United States forces hunting Villa shall be recalled or be reinforced for further operations, today awaited the receipt of information from General Funston.

AT STANDSTILL

By Associated Press Dispatch.
Washington, D. C., April 19. — General Funston already has submitted a lengthy report on the situation and additional advices from him are expected.
Meanwhile indications are that the chase for Villa is at a standstill. The general belief here is that the German situation would have some bearing upon the impending decision.

THE LAST WORD

"I have deemed it my duty, therefore," the President told Congress, "to say to the Imperial Government that if it is still its purpose to prosecute relentless and indiscriminate warfare, the Government of the United States is at last forced to the conclusion that there is but one course it can pursue and unless the Imperial German Government should not immediately declare in effect an abandonment of its present methods of warfare against passenger and freight carrying vessels, this government can have no choice but to sever diplomatic relations altogether."

Should a break with Germany occur, it was pointed out, the troops now in Mexico would be needed at home as military prudence would require that steps be taken for the protection of United States property.

MEXICAN HOPE

By Associated Press Dispatch.
El Paso, Texas, April 19. — Confirmation of reports that the United States expeditionary force was being concentrated at three points in Mexico preparatory either for the withdrawal of the troops or organization of a new and more extensive campaign, were received here today.
The belief that the American troops are about to leave Mexico is widespread among the Mexicans in Juarez, and has completely changed the attitude of the Mexican people in Juarez.
Messages received here stated that there were between four and five thousand cases of typhus in the city of Aguas Calientes.

EARNEST SCHILLER NOW ON HIS WAY

By Associated Press Dispatch.
Wilmington, Del., April 19. — Ernest Schiller, who recently held up the captain and crew of the British freighter Matoppo, on the high seas, was on his way today to the Federal prison at Atlanta, in custody of United States Marshals.

Schiller yesterday pleaded guilty to a charge of piracy and was given a life sentence.

INGRAHAM IS NAMED

By Associated Press Dispatch.
Washington, April 19. — Wm. M. Ingraham, former mayor of Portland, Me., has been selected by President Wilson for assistant Secretary of War.
The nomination was signed today. Mr. Ingraham will succeed Wm. Breckinridge, who resigned with former secretary Garrison.

Legislative Body Advised Fully as to Present Status of the Grave Crisis

The Future Rests Entirely With Germany—No Alternative Is Allowed in Note, Which Is Now on Way to Berlin.

By Associated Press Dispatch.
WASHINGTON, APRIL 19. — PRESIDENT WILSON HAS SENT A NOTE TO GERMANY WARNING HER THAT UNLESS ATTACKS ON MERCHANTMEN CARRYING AMERICANS, IN VIOLATION OF INTERNATIONAL LAW, ARE STOPPED, DIPLOMATIC RELATIONS WILL BE SEVERED.

THE PRESIDENT EXPLAINED THE NOTE IS PRACTICALLY AN ULTIMATUM, BUT DOES NOT CONTAIN A TIME LIMIT.

THE DEMAND IS MADE THAT GERMANY REPLY IMMEDIATELY.

By Associated Press Dispatch.
Washington, April 19. — President Wilson told Congress, assembled in joint session shortly after one o'clock, he has given Germany irrevocable notification that the United States will break off diplomatic relations if her illegal submarine campaign is continued.

A note, America's last word, practically an ultimatum and demanding an immediate reply, presumably was in the Berlin Foreign Office as the President was speaking.

The president asked no action whatever of Congress.

He simply informed it of the accumulation of facts proving Germany's assurances to the United States are being violated by the submarine campaign, despite earnest protest, is being conducted with renewed vigor, in controvension of all the laws of nations and humanity, and that he means to sever relations unless it is brought within the law.

Diplomatic history of the world shows that such a course is almost certain to be followed by war.

The president's note and his address to Congress are final. They mark the end of diplomatic ex-

changes. A continuance of the long standing relations, he made clear, depends alone upon Germany's conduct.

While the Senators were taking their seats, President Wilson reached the capitol and waited in Speaker Clark's office.

As the President entered, Senators, Representatives, Cabinet and galleries arose. An outburst of applause gave way to loud cheering. As the President began the review of the German submarine campaign, there was no demonstration to punctuate his recital of the sacrifice of American lives.

When he concluded with the expression of hope that Germany would so act to prevent a regrettable break with the United States, the assembly broke into cheers.

"I think this government should be neutral," said Representative Mann. "The president never has been neutral. He has been on the English side all the time. It is perfectly evident that the President, as a campaign political dodge is trying to work up to the point where he can get into a war with Germany during a presidential campaign."

"The President's position is a complete repudiation of his note of January 18th, sent through Secretary Lansing, regarding the arming of merchant vessels and submarine warfare," said Representative Cooper, ranking Republican member of the Foreign Affairs Committee.

"The whole situation resolves itself into a question of whether the United States will set up a code of regulations which it may have to abide by when its sole defense is the submarine."

THIS MORNING

By Associated Press Dispatch.
Washington, April 19. — 10:26 a. m. — The president, in his address to Congress today will reveal fully what he has told Germany. The note and his address, the Congressional leaders said, contains the plain statement that the alternative is the breaking of friendly relations.

The President revealed this fact

to Senators Stone and Lodge and Representatives Flood and Cooper, ranking Democratic and Republican members of the Congressional Foreign affairs committee, at a conference at the White House early today.

The President went over the situation very thoroughly with the committee leaders, and told them that he believed the United States could not remain on friendly terms with Germany if American lives continued to be placed in jeopardy by German submarines.

He laid before them all information he will convey in his address to Congress.

The demand for a stop of illegal submarine warfare, the President told the leaders, is unequivocal.

As the committeemen left the White House they made no effort to conceal what the President had told them. The President may claim, however, that if Germany conducts warfare in accordance with international law, the United States government will be glad to continue friendly relations.

It was disclosed that the President in his address to Congress will go into detail about the incidents which have caused the United States government to view the situation with such gravity.

The President takes for granted that members of Congress are familiar with them.

The note went forward last night in code by way of Copenhagen. The President wants it to be in the hands of Ambassador Gerard or the German Foreign Office when he appears before Congress.

UGLY ANGLE IN IGLE CASE

By Associated Press Dispatch.
Washington, April 19. — The German Ambassador, Count von Bernstorff, conferred with Secretary Lansing this morning. The engagement was made at the ambassador's request.

It was revealed that the ambassador went to the State Department, not to discuss the submarine situation, but to make further inquiries for the return of papers which were seized from Wolfe von Igle, former secretary to Franz von Papen.

The department of justice has virtually decided to hold Von Igle unless the State Department specifically demands his release on the ground that the crime with which he is charged was committed a year before he became Von Papen's secretary.

Washington, April 19. — The text of the note to Germany will be given out by the State Department probably for publication tomorrow morning.

French Regard the Capture of Trebizond By Czar's Troopers as Important.

Paris, April 19. — Paris received with great enthusiasm the news of the fall of Trebizond. This event was looked for but it was not thought the Russians would be able to capture the city so quickly.

The political as well as the military consequences are expected to be most important, particularly in view of the fact that Turkey has lost one of the most valuable parts of Asia Minor, at a time when, according to reports reaching Paris, Germany is weakening her forces in the Balkans to carry on attacks on the western front.

ANNUAL MEETING WOMAN'S PRESBYTERIAL

The forty-first annual meeting of the Woman's Presbyterian Missionary Society of the Chillicothe Presbytery, Synod of Ohio, convenes in the First Presbyterian church of Chillicothe, Thursday night and Friday of this week.

The features of the opening sessions Thursday night are an address on "Our Synodical Task" by Helen Keil, Synodical President of Home Missions, Oxford and an address by Mrs. N. W. Hankemeyer, Field Secretary of the Woman's Board of Home Missions, New York City, her subject, "A Message From The Home Field."

Friday morning's session will be largely devoted to business connected with the Presbyterial. Mrs. Fullerton makes the report of executive committee, Miss Anna Hummell, "Among Our Freedmen;" Mrs. Erskine Brown, "Box Work;" Mrs. A. L. McWilliams on "Mission Study."

Mrs. G. M. Ustie, First Vice President, who was to have opened the morning session, and Mrs. Frank M. Fullerton, Recording Secretary, will be unable to attend the meeting.

Mrs. P. J. Henness, of this city, has charge of the Friday afternoon opening prayer service, the theme, "Missions and World Issues."

Miss Alice Wishart, Field Secretary of the Woman's Board of Foreign Missions Philadelphia, will deliver an address on "The Home Base" and Mrs. A. F. Hopkins give the report of Home Missions.

The young Peoples' Hour will be in charge of Miss Anna May Parrett and Helen Keil makes an address, "Our Boys and Girls."

The report of Treasurer, Miss Anna Welsh, reports of committees and nomination of officers will close the afternoon's program.

A popular meeting will be held at night. There will be two addresses, Miss Wishart talking on "India" and Rev. Geo. L. Gelwicks, of China, speaking of the field in that Empire. There will be special music at each session.

HOW TO REGAIN STRENGTH

The great factor that retards recovery after sickness is that weakened devitalized condition, and it will interest our readers to know that our local druggists, Blackmer & Tanquary, have a reliable, non-secret strength creator called Vinol, which contains iron for the blood, the curatives of fresh cod livers and the nourishing properties of beef peptone, all combined in a delicious native wine. for the Drug Victims
There is no longer any question as to the wisdom of the enactment of anti-narcotic laws by the national congress. Under the authority of the national government to pass measures of that sort for the purpose of raising revenues, congress has taken effective means to stamp out an evil which was growing and spreading at such an alarming rate that the very foundation of the nation was threatened. Strict enforcement of the law has resulted in great progress toward breaking up the traffic in dangerous drugs—in fact the traffic in narcotics has almost been broken up already. So far, for the purpose underlying its enactment the law has worked admirably. Of course it was impossible for the national congress to incorporate in the anti-narcotic legislation any provision for the care of those who had already fallen victims to the drug evil and as a result thousands are suffering mentally and physically by reason of the deprivation which the law enforces. The victims are human beings and worthy of attention and to be pitied rather than censured. It is up to the generous whole souled people of the state to take up, by means of voluntary organization, the work of caring for those unfortunates and several such organizations have been formed in Ohio already. Genuine, well managed organizations of that kind are worthy of the support of good citizens. We can afford to give a little for a cause which will relieve the suffering and which will, benefit future generations so markedly.

The One Big Purpose
The United States has suffered much as a result of the European war and much as a result of the reign of revolution and anarchy in Mexico. It has suffered in the loss of property to the amount of millions of dollars and many American lives have been sacrificed to the demon of war. All told it is estimated that more than two hundred Americans have lost their lives in one or the other of the war zones. Under normal conditions this nation could have and would have called the offending people to account for outrages committed. Under present conditions we must be mindful of our inability, no matter how well prepared, to do aught by force or threat of resort to force, save add to the loss of property and life already sustained by plunging into the whirlpool of war. We should not be unmindful of the fact that threats of war to nations already at war mean nothing save to add to the turmoil and destruction now raging on every side. The United States must, under the most trying conditions, remain firm in its determination to keep out of the awful conflicts, remain in a position to further the cause of peace and to assist in making peace pacts effective when executed. Almost every warring nation has offended. There will come a day of sober thought and calm reflection to war mad nations and then the wrongs can be righted. Until that time the United States must, if possible, hold aloof from war ready to serve humanity and escape still greater loss. The position of the president is trying in the extreme and every good American should support him in his endeavor to avoid war. No president has ever faced a more difficult task than the present chief executive. Those who talk war for political effect should be frowned down.

Mexican Developments
Conditions in Mexico at this time are anything but satisfactory to the American people. The prospect for the success of the punitive expedition without a clash with the populace or with the troops of the de facto government is not particularly promising. Either by the populace or by the Carranza garrison at Parral our troops were fired upon last week. The resulting skirmish was sufficient to warrant the Carranza government, operating on Mexican ideas of policy, granting its good faith, to halt our troops on pretext of avoiding trouble. Since the Parral fight such meagre reports of conditions as it is possible to transmit to the border and get past the censors indicate that General Pershing's command was halted at Satevo, while hot on the trail of Villa, and just when his prospects were brightest. It is openly charged in official circles that the Parral affair was deliberately staged by the treacherous Carranza garrison until Villa could make good his escape. Then the Villa is dead hoax was circulated to gain further delay and was stamped with authenticity by Carranza officials. Now following close in order comes the report that the anger of the Mexican people is increasing. Unless Carranza can hold his garrisons in line, assure the United States not only that he desires to but that he can play fair—the troops in Mexico should be reinforced to such an extent that they will be able to handle the whole situation no matter what the developments. The government at Washington should permit no trifling.

Poetry For Today
AMERICA FIRST AND FOREVER.
A NATIONAL MARCHING SONG.
First land in all the world to me,
O great Republic of the free,
Thy lights on high,
Floods every sky,
And marks the paths across the sea.
Nation of nations, peoples' land,
For every race a helping hand,
Swift in the right,
Slow in thy might,
First in our love and faith you stand
Chorus:
First land in all the world,
With freedom's flag unfurled,
Emblem of United states, each state
a star,
Thy sons of native birth,
Thy sons from all the earth,
We love and serve thee first, in peace
or war.
By thy immortal patriot sires
Whose lofty valor still inspires
We now renew
Their pledge to you
Here by thy sacred altar fires.
Truly we'll keep the vows they swore
And if thy battle eagles soar,
We'll answer all
Thy trumpets' call
First, last and thine for evermore!

Easter
O white robed angel, speak to me,
Ere dawns the morning fair;
Roll now away the stone of grief,
Of gloom, of dread despair!
O white robed angel, bending low,
I hearken to thy word—
This resurrection morn with hope
Hath all my pulses stirred!
O white robed guardian of a grave
Where once the Master lay,
"The resurrection and the life"
Shall be my joy today!
O white robed angel, point the way
Till I my Savior see;
Till willing feet shall follow him
To his loved Galilee!

GOOD FRIDAY.
I was a little child who walked beside the beaten way.
The air was hung with flower scents, and in the meadows gay I heard the song birds murmuring and children at their play.
I walked until I saw a hill, and there, against the sky,
I saw three crosses raised aloft and on them, plained high.
I knew a holy man, our Lord, was just about to die.
I saw the gleaming sun go down, I saw the flowers fade,
I saw the fire from above as on His face it strayed.
And then I heard a woman scream, and lo, I was afraid!
I was a little child who walked beside the beaten way.
I could not understand or guess—I knew not what to say—
And yet, with untaught heart, I knelt beside the road to pray!

THE INFLUENCE OF EASTER.
Everybody Needs the Message, "Rise to Newness of Life."
No one may account himself free from the spiritual teaching of Easter day because he may consider the Christian faith concerning it romantic, fictitious, poetic, allegorical. None the less is the practical, personal truth emphasized, that everybody needs the message of Easter, "Rise to Newness of Life."
Is he in all respects the noble being he would have his friends consider him? Is his influence always on the side of that which is high and true? If a man is only that which God knows him to be is there not room for improvement in every one's life? Self examination and honest, sober thought will surely teach every one of us that there are nobler aims, purer

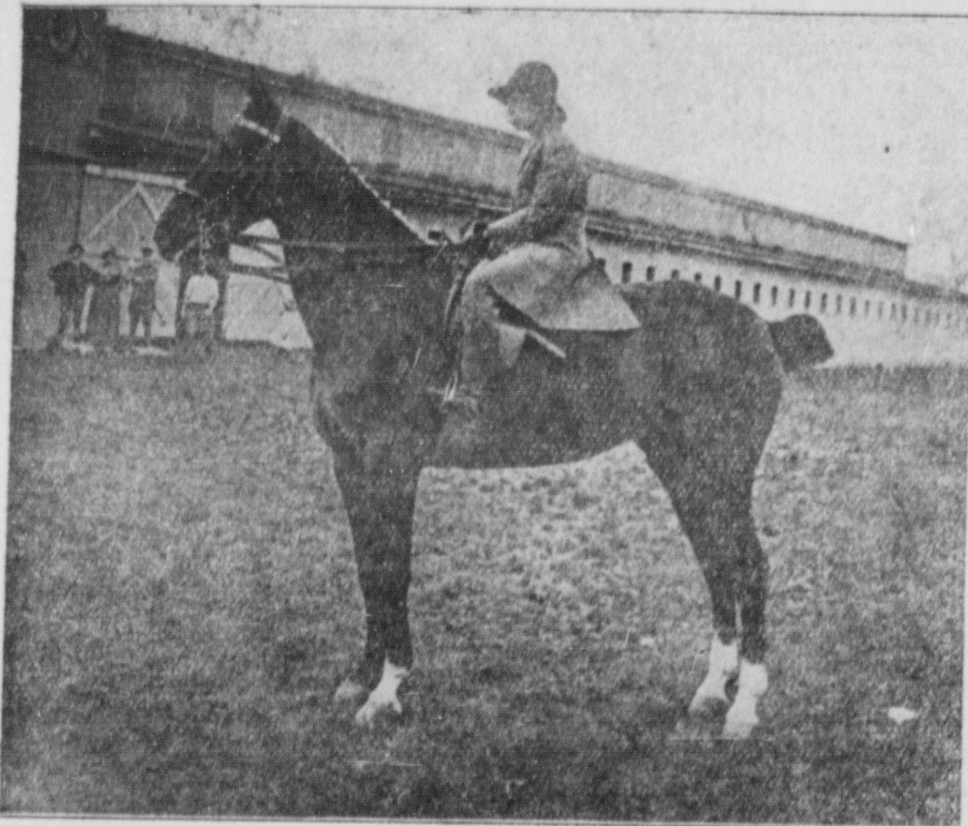

Mutual Profit, the Foundation of Permanent Success
The Geiger-Jones Company believes that permanent success in the investment business can not be founded on selfish considerations or the mere desire for profit—but can ensue only as the natural result of valuable, constructive service.
Our pre-eminent success during the past 12 years has been founded on this belief. We have grown neither more rapidly nor more slowly—but in direct ratio to the prosperity of the great manufacturing enterprises we have financed, and that of the 10,000 investors to whom we have sold securities.
During the past 12 years more than 20 such enterprises have made use of our service to speed up production and increase their profits. More than 10,000 men and women, residing in 35 states, have purchased nearly \$20,000,000, par value, of preferred stocks on our recommendation without losing a dollar of principal or income.
The par value of these stocks is \$100 per share, and purchases are made in amounts of from one share upward.
We have just published a very interesting "Portfolio of Anniversary Reports, with Photographs, from Manufacturing Enterprises Financed by The Geiger-Jones Company"—a 32 page book that is a valuable addition to the reference library of all who are interested in the industrial growth of the Middle West. It tells the principal facts about 20 great manufacturing plants and some of the details about The Geiger-Jones preferred stocks.
We will gladly send you a copy of this publication without expense or obligation if you will send us a post card bearing your name and address.

She will have a number of entries in the various classes at the local show, April 24 and 25.

THREE ROADS
USE NEW STATION

While negotiations between the B. & O. and D. T. & I. have not yet been closed for the D. T. & I. to become a tenant of the new Union Station, it is known with a degree of certainty that the arrangements will be completed within a short time, and that as soon as the arrangements are completed and the D. T. & I. becomes a tenant of the union station, steps will be taken to move the new D. T. & I. passenger station to some other city, or utilize it in some other manner in this city.

By becoming a tenant to the Union Station the D. T. & I. eliminates the necessity of making two stops in this city, and thus saves several minutes on each train, as well as offering more satisfactory arrangements in making connections with the other roads.

Part of the new train sheds erected by the B. & O. must be torn out and set back farther from the D. T. & I. tracks, it is announced, the sheds at present being closer than permitted by law.

WORK CONFERRED
BY IMPERIAL STAFF

For the third time during the past six months the Imperial Degree Staff of Temple Lodge I. O. O. F., conferred the first degree upon a class of candidates, Tuesday night.

The candidates were from Mt. Sterling and some 25 or 30 Mt. Sterling men were included in the number of visitors who watched the matchless work of the famous team.

On the 15th of next month the staff will exemplify the first degree in London, where several hundred Odd Fellows are expected to witness the work.

MORE ARRESTS FOR
UNLIGHTED MACHINES

Two more local residents were summoned before Mayor Oster Wednesday morning, for failure to have the lights burning on their machines.

Each of the men paid a fine of \$1 and the costs, amounting to \$4.95.

VOLUME OF TRADE
ON THE INCREASE

With the good weather and accompanying change for the better in

the condition of Fayette highways, the volume of business transacted in this city has greatly increased during the past few days.

Many persons have come into the city during the past ten days, for the first time since long in the winter when the highways became so bad, and large quantities of goods of all kinds are being purchased daily.

Each day brings a large number of people into the city to do delayed shopping. And the merchants are well supplied with the usual wide variety of goods so that shoppers are finding no difficulty in obtaining what they want.

MOTION FOR NEW
TRIAL OVERRULED

Wednesday morning Attorney C. E. Baughn filed a motion with Mayor Oster asking for a new trial for Elizabeth Minshall, citing some fourteen reasons why he believed a new trial should be granted.

After going over the motion carefully the mayor overruled it. It is claimed by Solicitor Gregg that time for filing the motion passed when sentence was pronounced upon the woman.

Alton Porter, against whom Elizabeth Minshall filed a charge of giving away intoxicants, will be tried on the charge Thursday morning. Porter is the man who testified that he purchased a pint of whiskey from the woman, paying her 70c for the same.

It is understood that other charges will be filed against the Minshall woman and if charges are filed and she is convicted upon a second charge, a much heavier fine may be assessed.

Developments in the case are being watched with interest.

CHALLENGE ISSUED
TO BOY CAMPERS

Four boys who are working toward defraying camping expenses this season, already have collected old paper and other materials which they have disposed of for \$7.50.

The boys have issued a challenge to the other boys who will take part in the annual camp, and at a meeting tonight the challenge will be accepted and the strife will be on the remainder of this week, to see which squad of boys can obtain the greater fund from collecting old papers, etc.

Summer Pleasures without Summer Discomforts! Indoors it's sticky and moist. On the porch it's cool—when the Vudors are down.

Why not eat, sleep, live there this summer? Thousands do it. The cool air gives appetite and forces you to dreamless sleep because it bathes the nerves while you sleep. It cures them.

Vudor Porch Shades cost little. They give air but keep out glare. You can look out through Vudors, but not in through them. They last—they keep "that new look," for they're stained, not painted, nor dipped.

PROGRESSIVE
FARM PLANS

Mr. Elmer Junk of the hardware firm of Junk & Willett, this city, has sold within the last 24 hours, three International Mogul Tractor plow outfits.

The purchasers were Howard Jefferson, of Madison Mills, Glenn and Horace Wilson, Bloomingburg, and Frank Rothrock, of this city.

The gang plows attached to the three mentioned outfits mentioned, consists of two 14-inch plows, each turning up furrows 9 inches deep.

The Mogul outfit is "taking" splendidly with farmers hereabouts as one of the most effective and progressive methods of farming. The tractor "works anywhere" on the farm. It will pull the cutters and rollers; it will harvest the grain, fill the silos and, in fact furnish power wherever power is needed on the farm.

Mr. Junk is congratulating himself on the great popularity of the Mogul tractor and the purchasers seem equally well pleased.

Many other progressive farmers are watching the new tractor with the intention of "annexing" one in a short time.

GREAT GAINS FOR THE CZAR

Trebizond Reported Captured By the Russians.

London, April 19.—According to an unofficial dispatch from Petrograd, the Russians have captured Trebizond, an important fortified seaport in Asia Minor, on the Black sea. A statement issued by the Russian war office, however, does not confirm the capture of Trebizond, but places the Russians at Drona, sixty-three miles from the city.

The fall of Trebizond means that the right wing of the Grand Duke Nicholas' Caucasian army has covered a distance of 115 miles since the capture of Erzerum, the great Armenian stronghold, on Feb. 15 last, steadily driving the Turks before them and clearing the entire Armenian Black sea lateral of the Ottoman defenders. The Russian war office statement tells of the ejection from many positions of the Turks west of Erzerum. The Russian forces now reported to be in Trebizond are at present a great flanking menace to the Turkish troops still stubbornly resisting the Russian tide from Erzerum into the interior in the direction of Sivas.

BRITISH CABINET ROW ON

Premier Asquith Likely to Tender Resignation.

LLOYD GEORGE MAY STEP IN

Members of the House of Commons Marrying All Their Available Forces For the Great Struggle Over the Carson Motion For Universal Military Service—Members Serving at Front to Return to London.

London, April 19.—That a grave cabinet crisis exists is admitted on all sides. No resignations have been tendered.

The Marquis of Crewe, lord president of the council, in his statement to the house of lords, which was the first official admission of the gravity and complexity of the problem dividing the ministers, intimated the possibility that Premier Asquith might not be prepared even on Thursday to make his promised statement, in which case the house would hear it the following Monday.

Members, for this momentous conflict, are marshalling all their available forces for the parliamentary struggle over Edward Carson's motion for universal military service. Strong whips are out and all the members of the house of commons serving at the front have been granted leave to return to London until a division is taken.

Political gossip centers mainly around Minister of Munitions David Lloyd-George and Winston Spencer Churchill, and the possibility of Mr. Lloyd-George succeeding Premier Asquith as the head of the government.

While the conscriptionist attack on the ministry is undoubtedly powerful and threatening, there also are strong forces making for the retention of the present coalition ministry—first, Mr. Asquith's known skill in surmounting political difficulties and holding his team together, and, second, the problem of finding an alternative government at a critical stage of the nation's fate.

In the event of the disappearance of Mr. Asquith as a result of his refusal to remain a member of a government resorting to universal service, Mr. Lloyd-George is regarded in many quarters as his natural successor. But against this solution is the fact that a very strong faction of the Unionist party is entirely opposed to Mr. Lloyd-George as it is to Mr. Asquith.

Moreover, it is known that Andrew Bonar Law, who is a conscriptionist in principle, attaches the utmost importance in the national interest to the maintenance of the present coalition ministry in power.

WHEREABOUTS IS NOT KNOWN

(By American Press)

San Antonio, Tex., April 19.—Supplementing also report in regard to the fight with Villistas, Major Howse wired Consul Letcher at Chihuahua City that he was positive Villa was in the mountains southwest of La Forja, which is a small town north-west of Parral.

Major Howse was in contact with several bands of Villistas while hurrying from LaBorja to Santa Cruz. It is believed he was pushing to Santa Cruz to join Colonel Brown's command because he feared a large number of Villistas were in that vicinity.

The positive statement by Major Howse that Villa was hiding in the mountains near LaBorja would indicate that the story of Villa's death is untrue, for the reason that his location is far from the place where it was reported his body had been found. General Funston has received no confirmation whatever from any source to substantiate the story of Villa's death.

DIDN'T GATHER VERY MUCH NEWS

(By American Press)

Washington, April 19.—Count Von Bernstorff, the German ambassador, calling upon Secretary Lansing by direction of his government, almost at the moment the president was arranging the joint session of congress, was informed that the secretary could not discuss the submarine situation with him at this time. It was evident that the ambassador was seeking information of the American government's plans and that it had been decided he should not have it.

The ambassador did state, however, to Secretary Lansing that under no circumstances could Germany give up the submarine, because it was being used in retaliation for Great Britain's food blockade, but would attempt to use the submarines in accordance with international law and Germany's assurances to the United States. He added that in any case where instructions to submarine commanders were violated reparation would be made, in accordance with the assurances given in the Lusitania, Arabic and other cases. Secretary Lansing told the ambassador he would see him again in a few days.

Senator Stone, chairman of the senate foreign relations committee, and Congressman Flood of the house committee, held a conference with the president, just before the latter appeared before the joint session of congress.

SOME ARMY

(By American Press)

Washington, April 19.—An army reorganization bill that would produce regular army and reserve military forces in the United States aggregating 1,000,000 men was passed by the senate without a record vote. It is a substitute for the Hay bill passed by the house and the differences will be worked out in conference. The amendment making the army's peace strength 250,000 instead of 180,000, as provided in the bill as framed by the military committee, was adopted 43 to 37, 22 Republicans and 21 Democrats voting for it. Another amendment adopted would create a reserve regular army force in time of war to be composed of school and college youths, and to provide a means of recruiting the proposed volunteer army force.

TRAGIC END

(By American Press)

Chicago, April 19.—Ed Von Kaonel, daring steepjack, concerning whom newspapers and magazines have printed columns, and who boasted of climbing the statue of Diana on the Tower building in Chicago and of painting the flag pole on the Singer building in New York, took one "chance" to many. While working on a steel stack on the Kock building in Wells street the stack "bucked" and he was thrown 100 feet to the roof of a building and killed instantly.

"CAP" MAYNARD AFTER DONAHEY

(By American Press)

Columbus, April 19.—In a report submitted to Governor Willis, Captain John P. Maynard, clerk of the house of representatives, declares that the report of Auditor of State Donahey on the Eightieth and Eighty-first general assemblies, charging those bodies with gross extravagance, is "misleading, deceptive and inaccurate," and he recommends that the governor return the report to Donahey for correction. Mr. Donahey, replying, said that a second report, if one is asked for, would contain some facts omitted from the first.

SOME GAIN IN MASSED ASSAULTS

Germans Capture Positions Near Chauffour Wood.

ATTACK EAST OF THE MEUSE

Total of French Captured by Germans in the Operations Before Verdun Placed at 40,000 Officers and Men—Crown Prince Said to Be Paving the Way For a Front Attack. Day's Operations.

London, April 19.—A part of the salient east of Chauffour wood, near Douaumont village, was taken by the Germans, following an infantry onslaught.

Berlin reports the capture of 1,738 prisoners, including 42 officers. This makes the total of French captured since the Verdun fighting began 40,604, of whom 753 are officers. A French army corps in time of peace is 40,000 strong.

As an answer to semi-official French statements charging the Germans with gross exaggerations of the French losses in prisoners, the Berlin war office announced that the name of each officer and man captured in the Verdun fighting will be published in the Gazette des Ardennes, as have been the names of all prisoners taken since the outbreak of the war. It is frankly admitted here that Monday's powerful onrush of the crown prince's infantry on the front between the Meuse and Douaumont has shattered "all theories of German exhaustion."

The French official report emphasizes that the attack was of extreme violence. As for its results in territory gained Berlin says that French positions on a stone quarry, 700 yards south of the Haudromont farm and on a ridge of hills northwest of the Thiaumont farm, were wrested from the defenders. The French war office on the other hand claims that the enemy only penetrated a first line trench in the east salient of the Chauffour wood, and that they were partly driven out of this position by a counter attack.

The importance of the huge attack ushering in the ninth week of the Verdun battle rests, however, not so much upon the ground gained as upon the fact that it disclosed for the first time the specific direction in which the crown prince proposes to pave the way for the final front attack against the great French stronghold. For that the fate of Verdun will be decided in such a frontal attack, the lessons of Antwerp, Maubeuge and part of Warsaw have amply demonstrated.

The next blow is expected to be struck on the west bank of the Meuse against La Mort Homme and Hill 304. The French communique emphasizes that this front has been under a violent battering by the German heavy guns.

Woman a Suicide.

West Union, O., April 19.—Despondency over the death of her husband, A. G. Lockhart, a wealthy farmer of Green township, is supposed to have been the cause of Mrs. Lockhart's committing suicide by jumping into the Ohio river. Her body was recovered. She leaves an estate of \$100,000.

Ruling Bars Women.

Columbus, April 19.—A woman can not be elected health officer, according to a ruling by Attorney General Turner to the state board of health. The opinion has reference in particular to the action of the township trustees of Brown township, Delaware county, who recently elected a woman as township health officer.

Pleads For Assailant.

Cincinnati, April 19.—To the grand jury August Peters, thirty-six, pleaded for the liberty of the man who shot him. Peters asked the jurors not to return an indictment against Florence McCarthy, forty-eight, arrested on the charge of shooting with intent to kill. Pity for the seventy-year-old mother of McCarthy prompted Peters to make his plea.

The Browning Club closed a profitable year with a pleasurable club session, followed by a social hour, Tuesday night.

The President, Mrs. P. J. Hennes, presided with Mrs. D. H. Rowe chairman of the Social Science and Philanthropy department, in charge of the program.

Mrs. Harry Sprenger contributed a splendid paper, held over from the Home Economics department on "Common Sense and Food Chemists."

Mrs. W. R. Pyley, in a most interesting and well written paper, treated of the Juvenile Court and Judge Lindsey's wonderful work.

Miss Beulah Harbison, who has a lovely contralto voice, favored the club with two solos, "Liddle" and "To a Wild Rose," Miss Ruth Reid accompanist.

Considerable business was taken up for club discussion, the most important transaction the club's decision to join the present movement now agitated for a city federation of clubs. It was voted to hold next year's meetings in the large room of the Y. M. C. A. Annex, which it is expected will be engaged as a club home for all the clubs of the city.

The Browning Club women bring Prof. Morgan here for a Shakespearean recital on Wednesday evening, April 26th.

The club adjourned to Hughey's Confectionery for ice cream and a social finale.

Mrs. Joseph H. Harper hospitably entertained the Wednesday afternoon Eucher Club.

The annual dinner given by the Domestic Science girls to the teachers of the high school passed off with decided eclat, Tuesday night, reflecting immense credit upon the clever girls of the class and their very successful dinner.

Two of the girls, Olive Hillery and Sarah DeVees played the roles of host and hostess with much grace, and served at each end of the table in English style. There were four courses of delicious viands, prepared and cooked by the girls of the class.

The table was lovely, with a novel and artistic center piece of daffodils, emerging from crystal buds in an oval mound of fern and asparagus phormosa. It was specially designed for the occasion by the Buck florists.

The favored guests were Supt. and Mrs. William McLean; Mr. and Mrs. H. G. Coffman, Miss Marie Grove, Miss Elizabeth Sheen, Miss Amy Conn, Miss Clara Thurston.

Mesdames Charles C. Pavey, A. P. Morris and Charles T. Howe have been chosen as delegates to represent the Columbus Federation at the biennial convention of the General Federation of Women's Clubs in New York, May 23 to June 6.—Ohio State Journal.

ANOTHER CASE AT FAYETTE HOSPITAL

Mrs. John Ater, of Williamsport, is a patient at the Fayette Hospital, and will undergo an operation tomorrow. Dr. R. M. Hughey will be in charge of the operation.

Other patients at the Fayette are doing very well.

TO ENROLL ALL DOCTORS.

(Associated Press Cable) London, April 19.—Medical men throughout the country, regardless of age, are being asked to enroll themselves to meet "an urgent national need." The work of enrollment is being conducted by the Medical War Committees in England, Scotland and Ireland.

For military purposes the service age of doctors is up to 45 but medical men beyond that age can give their services to home hospitals and therefore they, as well as doc-

SOWING OATS IN BAD WHEAT FIELDS

Quite a number of farmers in some parts of the county are cutting up their fields sown to wheat last fall in order to sow the field to oats, believing that a crop of oats would be of much greater value than what wheat would be produced from the field.

This practice is only carried out where the wheat has suffered unusual damage by the severe winter. Some farmers estimate the Fayette wheat crop will be two-thirds of an average, although many fields of wheat are little damaged.
